☎ 9608203108 | ✉ kr-sushant | 🏠 Patna, India | Github : [sushant960kr](https://github.com/sushant960kr)

Motivated and detail-oriented BCA graduate from Amity University, Patna, aspiring to start a career as a Cloud and DevOps Engineer. Familiar with key concepts in Infrastructure as Code (IaC), CI/CD pipelines, cloud-native tools, and basic monitoring practices. Eager to apply foundational knowledge to real-world cloud environments, contribute to team success, and grow through continuous learning and hands-on experience in modern DevOps workflows..

Technical Skills

- **Programming Languages:** Java , Shell Scripting , SQL
- **DevOps & Automation:** Git, Chef, Ansible, Terraform, Jenkins, Kubernetes
- **Cloud Technologies:** Amazon Web Services (AWS), Microsoft Azure
- **Networking:** IP, MAC, DNS, Load Balancing, Subnetting

Experience & Internships

Cloud Computing Intern – NullClass (*Remote*)

- Configured and deployed static websites on cloud platforms.
- Automated EC2 instance deployment for efficient infrastructure management.
- Setting up custom domain names and enabling **HTTPS** for secure access.
- Using version control tools like **Git** to manage website content and updates.

Education

Amity University, Patna, Bihar

Bachelor of Computer Applications (BCA)

CGPA 8.5/10

- Coursework: SQL, Networking, Object-Oriented Programming, and Core Computer Science Concepts

A.N. College, Patna, Bihar(PCM)

Percentage 78%

Higher Secondary School Certificate

Projects

PHP Web App Deployment with DevOps and Cloud Practices

- Automated the deployment of a PHP web application using **Docker**, **CI/CD pipelines**, and **cloud hosting**.
- Implemented **containerization**, **orchestration with Kubernetes**, and **seamless updates via GitHub Actions**.
- Configured Jenkins pipelines to automate build and deployment processes on AWS.

Weather App – Real-Time Weather Forecast Web Application

- Developed a responsive weather web app using **HTML**, **CSS**, and **JavaScript** with real-time data from the **OpenWeatherMap API**.
- Implemented **REST API integration** to fetch live weather information based on user-input city names.
- Demo: <https://weather-m1.netlify.app/>

AWS Infrastructure Automation with Terraform

- Developed an **Infrastructure as Code** to automate the creation and management of AWS resources using **Terraform**.
- Integrated **AWS CodeBuild**, **CodePipeline**, and **Systems Manager** to streamline deployments and secrets management.
- Configured IAM roles, security policies, and parameter store to enhance **cloud security and automation**.

Certification

- **AWS Certified Cloud Practitioner (CLF-C02)**
- **DevOps Certification** – Edureka
